Molalla River Mollie is a 6 year old Yellow Labrador Retriever who has been the Bennett/Porter office dog since she was 8 weeks old. She not only has her own section on the Bennett/Porter website, but last year she was featured in a Northwest magazine about office dogs. "Sherlock Bones" was her first picture, taken when she was just 4 months old, and we've been dressing her up ever since to announce Special Events, End User Conferences, Class Specials, and new product offerings. We published the first "Mollie Calendar" in 2004 and it has become an annual tradition with our clients and friends. We love sharing her with all of you.

Mollie was originally supposed to be a hunting dog for my husband. She is the granddaughter of our very special MacKenzie, who was the first Yellow Labrador Retriever we bought back in 1986. My husband was in Alaska when Mollie's litter became available, and waiting until he returned to pick out a puppy wasn't an option. As soon as I saw her, I knew she was the puppy I was supposed to have and I knew her name was Mollie. I didn't want to leave her at home with the adult Labs we had, so I brought her to the office with me every day until my husband returned from his trip. By then, it was too late - I'd bonded with her and couldn't bear to be separated from her. She's such an incredibly loyal dog. When I leave one room and go into another, she always follows me. (Even into the bathroom!) And If I leave the office during the day and don't take her with me, she's always waiting by the front door for me to return. She's truly a very special dog and I'm so very lucky to have her.

The Boss Lady
