

*The part of Molalla River Mollie played by...er,
uh...Molalla River Mollie.*

Hooked on MAS 90 Level 4.0?

Best Software will be shipping Level 4.0 directly to you by the end of March, and since they have also announced that Level 4.0 is the biggest upgrade since the release of the Windows product back in 1996, we want to make sure you don't feel like a fish out of water when you get it. Reel-y.

There are some very exciting new features with Level 4.0: Security has been totally revised, and is now based on "roles" rather than individual users, Report Master reports specific to the General Ledger will be replaced with the Business Insights Reporter, and you'll now be able to expand your Chart of Account beyond 9 digits. But regardless of the new features of the General Ledger, there are some things you need to know before you upgrade: Since security has been revised, what's going to happen with your existing security? Do you have any Report Master reports written out of the General Ledger? If you're using the Custom Financial Statements, you'll need to use a utility to put them back on the menu. Utilities that you might have used for years (such as SVFCPY and SVDATA) have been replaced with new utilities. Finally, we want you to be aware of a program that needs to be run before you upgrade to Level 4.0, to assure that your General Ledger balances are correct after the conversion.

In an effort to get as much information about your upgrade to you as possible, we would like to invite our clients to a free 2 hour seminar of "things to know before you install" your Level 4.0. The seminar will be held at the Greenwood Inn on Tuesday, the 13th of April, from 9:00 a.m. until 11:00 a.m. We have also posted the "Best Software Version 4.0 Customer Guide" under the Support Database on our website (www.benpor.com) and our customers can download and review it. And finally, in our newsletter coming out later in the month, we'll provide a checklist of things to do before your upgrade.

Please RSVP to Carina Sims at 503-620-3484 if you are planning to attend our April 13th seminar. (Due to limited seating, we need to limit attendees to 2 per company.) We're anxious to help make this major upgrade a positive experience for everyone. Reel-y!
