## Chilly Today—Hot-Ta-Mollie!

Spring End User Conference • Kingstad Center • April 25, 2006

Do you need CPE Credit before the June 30<sup>th</sup> deadline? Even though it might be chilly outside right now, our Spring End User Conference is going to be a hot one and qualifies for CPE credit! We're inviting our CPA friends to our semi-annual conference so you can see what is happening in the mid-market accounting space besides accounting. The magazine Accounting Technology lists The Paperless Office as one of the most important technology issues for 2006, as is computer security (why everyone using the internet should have a firewall)—and we'll be offering sessions on both of these topics at our conference.

For those of you who know and use MAS 90 or MAS 200 Accounting Software, we'll show you how we have integrated ASG-Cypress™ Paperless Document Management with our MAS products—but we're not limited to MAS—Cypress can work with any accounting system. And you can document manage your entire office—not just the accounting functions! We'll have a session on Fixed Asset Software from Sage (given by a Sage Certified Trainer for Fixed Assets) as well as a session about the new Sage Payroll Services program, which is an outsourced payroll program. And as always, we will have sessions dedicated to using MAS 90 and how to get more out of it (including sessions on Custom Office, Business Insights Reporter and Tips/Tricks).

Cost of the session is \$25.00, and pre-registration is necessary. Please visit our website at [www.benpor.com](http://www.benpor.com) to register for the Conference and to download our conference brochure.

So, even though the temperature outside is chilly today—this End User Conference is going to sizzle! Register today!

**MAS 90 • MAS 200 • MAS 500 • ASG-Cypress™ Paperless Document Management • Systems Integration and Networking**
