

“Did Some Bunny You Know Register for the Bennett/Porter End User Conference?”

Directions 2004 • Greenwood Inn • October 14, 2003

*The part of Some Bunny is played by Mollalla River Mollie,
the Bennett/Porter office dog.*

Directions 2004 MAS 90 / MAS 200 End User Conference is going to be hoppin' this year! As in previous years, our keynote speaker for the conference will be David Butler, Executive Vice President of Channel Partner Development. This year, we've asked Dave to address the acquisitions Best Software has been making and how that may affect you in the future.

We'll be showcasing MAS 90 / MAS 200 Version 4.0 in the General Session (primarily General Ledger, the new Crystal Wizard, and some new security features), and we'll have breakout sessions after that General Session where you can register and attend the sessions of your choice. One of the focuses for this year's event is security – both in terms of network security, as well as the prevention of embezzlement, and what you can do to protect yourselves. We'll have two retired Oregon State Policemen (who now have their Private Investigator's licenses) discuss some surprising statistics here in Oregon, and we'll have a couple of sessions discussing what you can do to protect your computer systems from being accessed. As in past Conferences, we'll have sessions on Crystal, Tips and Tricks on Core Accounting, our UPS Worldship Integration and Address Verification in Shipping and Billing, plus two sessions surrounding Technical Issues related to hardware. We'll also have a special session on ABRA HR and the new link with Payroll. If you aren't registered, call Mary at 503-620-3484 and she'll be all ears to help you!

- What:** *Directions 2004, Bennett/Porter's Annual End User Conference*
Date: *October 14th, 2003*
Place: *Greenwood Inn – Beaverton*

“Does Some Bunny You Know Need Accounting Software?”

We know how many different accounting packages there are in the marketplace today, and there are as many dealers for those packages as there are solutions. How do you know if you're recommending the right one, or choosing the right dealer? After all, it is your reputation with your client that is on the line. And dealing with some vendors is like pulling a rabbit out of your hat – you need to be a magician to get them to perform!

We're Bennett/Porter & Associates, Inc. and we offer a full range of accounting software products – from Entry Level products such as QuickBooks and Peachtree, to Mid Market products such as MAS 90 / MAS 200, and finally Enterprise Level products, such as MAS 500. We're even certified to sell and support MIP, a non-profit accounting software product.

We'll be the first to let you know if we don't have a solution for your client, and we have a reputation for only providing solutions to clients where it is a good fit. We even have proof! Out of 6500 resellers for Best Software products, for the fourth consecutive year we have taken top Customer Service honors, from an independent survey of all MAS 90 users across the country. (And we're the only company to have ever received that award from Best Software!)

Don't pull your hair (hare?) out! Call us today at 503-620-3484 and give us a chance to be your lucky rabbit's foot!
